Resolution No. 4 of the Fourth United Nations Conference on the Standardization of Geographical Names suggests that the toponymic guidelines submitted by Austria as document E/CONF.74/L.2 should serve as a sample of format and content for similar guidelines. Austria feels the obligation to revise regularly her toponymic guidelines in order to facilitate the observance by other countries of the said resolution.

The present revision of the original document refers mainly to the adjustment of the linguistic maps to the latest census and to the inclusion of the inhabited place-names of the Slovenian minority in the official Gazetteer of Austria in accordance with the recommendations D and E of resolution No. 4 of the first Conference on the Standardization of Geographical Names, in 1967 (E/CONF.53/3).

Revisions pertaining to standardization of place-names in a multilingual area of Austria are presented under agenda item 5 (c) (E/CONF.85/L.12).
